Dear subscribers to the DRC Newsletter!

The newsletter of March 2019 is here! We are once again bringing information about many possibilities for cross-border cooperation and open dialogue between scientists from across Europe. We would like to highlight that the **Call for Nominations** for the **Danubius Young Scientist Award 2019** is still open. So if you know - or you are - a promising young scientist who deals with a cross-border issue with relevance to the Danube Region, apply and/or spread the information to others.

You or your colleagues can also apply for the **16th DRC Summer School on Regional Cooperation** taking place in Zagreb, Croatia. Furthermore, the newsletter introduces you with other opportunities how to connect with like-minded people from different countries. Just read it!

Remember, feedback and comments are always [welcome!](#)

The **Danubius Young Scientist Award** will be granted to **14 young scientists - one in each country that is part of the EUSDR**. The award seeks to encourage young scientists to engage in the scientific examination of problems and questions specifically related to the Danube and to stimulate the scientific community in the Danube region. The award will be endowed with 1.200,- Euros for each winner of the Danubius Young Scientist Award. Moreover, thanks to the ongoing kind support by the JRC, the awardees will be invited by the European Commission's Joint Research Centre to visit the JRC in Ispra, Italy in 2020.

**The candidate has to be nominated by his/her hosting scientific organisation (university, academy of sciences, etc.) meaning that the candidate himself/herself cannot apply for the award.**

Every university, academy of sciences or research organization etc. can nominate up to a maximum of three candidates in total; however the three candidates have to come from different faculties or departments, institutes or research groups within the organization.

An international expert jury will be established (including members of the Danube

the countries of the EU Strategy for the Danube Region will be recommended for the award.

**The award ceremony is expected to take place in Bucharest in November 2019.**

- Nominations will be accepted in electronic format and in English only.
- Nominations including all relevant documents have to be sent to:  
[d.martinek@idm.at](mailto:d.martinek@idm.at)
- The deadline for submitting nominations is on **26th April 2019 at 23:59.**

The Danubius Award was created in 2011 by the Institute for the Danube Region and Central Europe (IDM) and the Austrian Federal Ministry for Education, Science and Research (BMBWF) to honor persons with extraordinary scientific achievements and output in relation to the Danube Region. Within a rotation system in one year achievements in the fields of humanities, social and cultural studies are awarded, in the following year achievements in the fields of life sciences.

2019 it is envisaged to complement this award for the sixth time with a specific price for young scientists – the so-called „Danubius Young Scientist Award“.

You can find award criteria and further information on the [website of the Danubius Young Scientist Award](#).

#### 4. European Forum Alpbach 2019

The European Forum Alpbach is an interdisciplinary platform for science, politics, business and culture. Established in 1945, the annual **European Forum Alpbach** and its events throughout the year address the relevant socio-political questions of our time.

**Liberty and Security** is the general topic of the European Alpbach Forum 2019. The bouncing back of liberalism post 1945 in Western and post 1989 in Eastern Europe led many to believe that liberal democracy and market economy had become the only game in town. And that on the wings of globalisation it would pervade the whole world. But this is not the case. Who or what is the midwife of current new waves of political illiberalism, economic protectionism and the obsession with security, often at the detriment of liberty? When and why did we give up on striking a fair balance between liberty and security?

#### **Alpbach Scholarship Programme – become part of Europe’s “Festival of Ideas”!**

Every year, 700 students from about 90 nationalities participate as scholarship holders in the European Forum Alpbach. Join smart minds from around the world in a charming Alpine village, immersing yourself in an environment bursting with novel ideas, new ways of thinking and opportunities for making great contacts.

scholarship covers the participation fee to all events at the European Forum Alpbach. Additional subsidies are available for accommodation and daily allowances.

### Scholarships are now open for application!

vom 21. bis 28. Juli 2019 statt.

Im *Annus Mirabilis* 1989 sind die staatssozialistischen Systeme innerhalb kürzester Zeit zusammengebrochen und wurden von demokratischen Systemen abgelöst. Mit der Osterweiterung der EU schien sich die Demokratie als unhinterfragbares Ordnungsmodell durchgesetzt zu haben. Wider Erwarten haben in der gesamten Region in der letzten Dekade Dekonsolidierungsprozesse der Demokratie eingesetzt.

Weder die Demokratisierung Ende der 1980er Jahre noch die aktuelle Welle der Dekonsolidierung wurden von der der Politikwissenschaft vorhergesehen. Dennoch hat die Auseinandersetzung mit diesen Transformationsprozessen die Theorieentwicklung und das Verständnis für den Wandel politischer Systeme gefördert

Ziel der Sommeruniversität ist es, eine Bestandsaufnahme der Demokratieentwicklung in der Region in den letzten 30 Jahren zu erarbeiten und eine kritische Bilanz der Erklärungsansätze der

Funktionsweise demokratischer Systeme gewinnen und in die Lage versetzt werden, mögliche Szenarien für die Zukunft der Demokratie im Donauraum zu entwerfen.

## ALTERNATIVE ECONOMIC AND MONETARY SYSTEMS

THE ECONOMY OF THE FUTURE

Summer University Vienna  
Vienna, July 24 - August 9, 2019

## AEMS

Is a world dominated by profit and competition a good place to be? This summer program focuses on ways to restructure economic systems to embody sustainable use of resources and a more collaborative society overall. At AEMS you learn about:

- The variety of alternative economic and monetary systems that are already in practice worldwide.
- Ecologic sustainability, population growth and the long-term management of natural resources and energy.
- Business ethics, consumerism, solidarity and the common good: The need for a new philosophy.

## ORGANIZERS

The BOKU University of Natural Resources and Life Sciences contributes to a sustainable use of natural resources by connecting natural sciences, engineering and economic sciences.

Economy for the Common Good offers an answer to current ecological, social and economic problems. As of 2018, more than 2.100 companies have committed themselves to the initiative.

Each year, the OeAD-Housing Office accommodates over 2,500 students in energy-efficient dormitories. It also won the 2013 Austrian Climate Protection Award.

### 8. proESOF Call for Proposals

This call for proposals, launched by the [TESI Local Programme Committee](#), aims to collect ideas and to support the development of initiatives which will enhance

- **proESOF events 2018-2020** preferentially in the North-East of Italy and Central and Eastern European areas;
- **Science in the City Festival**, Trieste ESOF 2020 (three weeks from June 27 to July 18, 2020)
- **Draft proposals for the official call of ESOF 2020 Trieste** (Call in January 2019).

The proposals may be related to the following areas:

**Science to Science:** focused on current and future path-breaking science, it provides for keynote speeches and events, plenary sessions, workshops, roundtables and debates. It encompasses social sciences and humanities as well as physical and life sciences, engineering and medicine.

**Science to Business:** a unique platform in Europe to exchange ideas and good practices on research-driven business models, public private partnerships, the economic developments resulting from technological innovation, future careers and future “new jobs” opportunities.

**Science to Policy:** stakeholders, governments, scientists, industry and the public in the Triveneto region and in the South East European countries, will be asked to cooperate in a joint effort to ensure reliable, evidence-based policy-making for the benefit of the society as a whole. Possible discussion subjects include the ethical use of scientific knowledge in addressing the grand challenges of humankind, integrity of science, science diplomacy to build peace and cohesion.

**Science to Citizens:** it aims to create a scientific citizenship for all and to promote the idea of science as fundamental to problem-solving. All activities and events organized in this frame will inspire passion and a collaborative attitude in people, from the very young to the elderly, in order to build a sense of identity and ownership within the field of science.

**Science to Communicators:** aimed at building a solid network of science communicators active in different fields (from journalism to events organizing, from publishing to communication corporate) across Europe, with a special focus on the Triveneto region and the South East European countries.

You can find more information on the website: [www.proesof2020.eu/CallProEsof](http://www.proesof2020.eu/CallProEsof)

## 10. USAMV Bucharest Agricultural Economics and Policy Summer School

The Faculty of Management, Economic Engineering in Agriculture and Rural Development, University of Agronomic Sciences and Veterinary Medicine of Bucharest and its partners are honoured to inform you that the registrations for the fourth **USAMV Bucharest Agricultural Economics and Policy Summer School** have started!

The fourth USAMV Bucharest Agricultural Economics and Policy Summer School will take place at USAMVB from **9th-14th of September 2019**. Because of the high number of applications on this topic in the past, the six-day event will again focus on “Policy Evaluation in Agriculture”. The course will start with the normative foundations of policy evaluation, will cover methodological tasks and finally dive into a case study. Students are going to work on the concept for policy evaluation themselves and have the opportunity to participate in numerous excursions that illustrate the everyday business of policy evaluation, but also the wealth of Romanian rural culture.

The official language of the course is English.

The target group that the event addresses includes:

- Postgraduate students (Masters or PhD students) in the field of agricultural economics and policy
- Young researchers with an educational background in economics, management, marketing or other social sciences disciplines applied to agriculture
- Young professionals from governmental institutions (ministries, authorities and agencies), non-governmental organizations related to agriculture who need a refresher course.

You can find more information on the Summer School on the website <http://course.enhance-project.ro/>

## 11. The Danube Cooperation Forum

## DANUBE COOPERATION FORUM Galati, 11-12 April 2019

The **Danube Region Cooperation Forum** is a two days' annual event held in Galati, during which government representatives, together with European officials, as well as from the administrations of regions and cities, as well as experts and academics will have the opportunity to share good practice and knowledge in regional and urban development.

The forum is also a recognized **platform for dialogue on political and economic issues on the development of the Danube region** and to raise decision-makers' awareness of the **importance of local and regional partners in the process of EU policy making**. It is also characterized by a high density of activities, being structured in thematic sessions, workshops and panels. At the same time, the event will be a platform for networking and direct contacts between participants.

The Danube Cooperation Forum will be held on **11th-12th of April 2019** at **"Dunarea de Jos" University in Galati, Romania**.

The event will give to the participants the opportunity to share their own expertise, experience, and to familiarise themselves with best practices on a range of regional themes (local and regional development, youth, resilience, energy security, environmental security, citizenship, European policies, neighbourhood policy etc.). It also encourages the dialogue with stakeholders and engages in new partnerships and joint projects that can provide solutions to regional challenges.

Detailed agenda of the Forum can be found [here](#).

**Call closing 03 June 2019**

Training is free of charges and travel/subsistence costs are covered by the JRC.

### Conditions and criteria for access

The JRC offers access to its **non-nuclear facilities** to researchers from Lead User Institution and User Institutions ([see definitions in the Framework](#)) only from [countries associated to the EU Research Programme Horizon 2020](#). The Lead User Institution must be from a university, research or public institution, or from a Small-Medium-Enterprise (SME).

The **Training and Capacity Building topics** offered in the Nanobiotechnology laboratory include an introduction and hands-on training on:

- Nanomaterials sizing using dynamic light scattering, disk centrifuge sedimentation, asymmetric and sedimentation field flow fractionation with different detectors and analytical ultra-centrifuge.
- In vitro assays for studying nanomaterial-cell interactions and highlighting pitfalls occurring during assay development due to the specific nature of nanomaterial (in vitro dosimetry, interaction of nanomaterial with cell reagents).
- Biomolecular interaction studies using surface plasmon resonance and quartz microbalance techniques.
- Raman spectroscopy, ellipsometry, electron microscopy and an introduction to surface chemistry analysis using XPS and/or ToF-SIMS.
- ICP-MS including single particle detection.
